KOMAN Environmental Assessment Services, LLC (KEAS), is an SBA certified 8(a) Alaska Native Company that is focused on delivering solutions to our clients and customers to help meet their operations requirements. Our capabilities encompass environmental planning and analysis under the National Environmental Policy Act (NEPA), including the preparation of Environmental Impact Statements (EISs) and Environmental Assessments (EAs) for federal agencies; biological, cultural, and natural resources; compliance and permitting; investigations; and scientific and technical consulting. Our interdisciplinary team manages projects for clients across the United States and its territories, including Hawaii and Guam.

KEAS is able to leverage our corporate environmental experts to tackle complex scientific challenges; comply with regulatory requirements; and monitor, protect, and restore natural resources while maintaining operational objectives. Our quality work products focus on performing scientifically sound studies to fulfill client needs.

KEAS has access to our corporate fleet of fully equipped research vessels that can be outfitted with specialized equipment and instrumentation to meet project needs. We offer a large pool of U.S. Coast Guard-licensed captains, experienced deck- hands, divers, and scientists.
